SUMMARY

Results-driven Full-Stack Software Engineer with 4+ years of professional experience architecting, building, and scaling web and mobile applications across diverse industries including Fintech, E-Commerce, and Healthtech. Proven expertise in React, Next.js, Node.js, TypeScript, and cloud services. Strong international collaborator with a track record of delivering high-performance, accessible solutions for global clients in the US, UK, Germany, and Nigeria.

SKILLS

- | | | | |
|----------------------|-----------------------|---------------------|-----------------------|
| • JavaScript (ES6+) | • React.js / Next.js | • Django / Python | • MongoDB / Mongoose |
| • AWS Cloud Services | • PostgreSQL / Prisma | • Technical Writing | • React Native |
| • TypeScript | • Node.js / Express | • Tailwind CSS | • REST & GraphQL APIs |

EXPERIENCE

Fullstack Software Engineer

02/2026 – Present | Remote (USA)

TrueConnect Offers

- Architect and maintain full-stack web and mobile application features using Next.js, Node.js, and TypeScript.
- Engineer scalable RESTful APIs and integrate secure payment systems and real-time transaction processing.
- Optimize database queries and schema designs with PostgreSQL and Prisma to handle high concurrency.
- Drive cross-functional agile sprints with international teams, delivering clean, unit-tested production code.

Fullstack Developer

11/2025 – 02/2026

Hoom Technologies

- Developed full user authentication systems using JWT, secure password hashing, and role-based access control.
- Built responsive frontend interfaces with React/Next.js and integrated them with backend microservices.
- Designed and implemented RESTful endpoints using Node.js and Express.
- Created database schemas and queries using MongoDB/PostgreSQL and ORMs like Prisma or Mongoose.
- Integrated third-party services such as payment gateways, email notification services, and cloud storage.

Front end developer

01/2024 – 11/2024 | Remote (UK)

Sozorock Tech Inc.

- Implemented modern frontend frameworks, enhancing development speed and feature delivery by 40%.
- Collaborated with cross-functional UK product design and engineering teams to deliver client deliverables on time.
- Integrated complex backend APIs seamlessly, expanding core product functionality and user reach.
- Maintained high code quality standards through rigorous automated testing and peer code reviews.
- Crafted responsive web designs that boosted user engagement by 30%.
- Revamped corporate web platform using Next.js, resulting in measurable increases in organic web traffic and interaction.
- Developed a custom UI component library, boosting developer productivity across sub-projects.

Full-Stack Software Engineer

01/2023 – 12/2023 | Remote (Germany)

Tech Trend

- Engineered robust web applications and interactive dashboards utilizing React.js, TypeScript, Node.js, and Express.
- Streamlined API integrations and backend query performance, achieving 25% faster load times for data-heavy operations.
- Collaborated with international backend teams to implement OAuth2 authentication, state management, and real-time alerts.
- Maintained thorough technical documentation and automated CI/CD pipeline tests to ensure continuous deployment stability.

Freelance Web Developer

03/2022 – Present | Remote

Freelance

- Designed and developed responsive, user-centric web applications for global clients across Fintech, Healthtech, and E-commerce.
- Built production-ready interfaces with React.js, Next.js, TypeScript, and Tailwind CSS, ensuring cross-device optimization.
- Collaborated with client teams to implement interactive dashboards, data visualization, and accessibility standards.
- Key projects:
 - **AscendlyAI** (ascendly-ai-gilt.vercel.app) – AI-powered platform for resume and cover letter generation.
 - **MindAI Journal** (mindjournal.site) – Interactive journaling web application with rich-text editing using Tiptap.
 - **ArtFolio** (artfolio-tau.vercel.app) – Portfolio platform showcasing custom creative designs.

Full-Stack Developer Intern

05/2022 – 12/2022

Zuri Team

- Gained practical experience in frontend and backend web development using HTML, CSS, JavaScript, React, Node.js, and Express.
- Collaborated on team projects with Git/GitHub, built responsive user interfaces, and implemented authentication flows.

EDUCATION

Bachelor of Engineering B.Eng, Mechanical engineering

2018 – 2024

Federal University of Technology, Akure, Ondo State

Second Class Upper

- Graduated with Honors in Bachelor of Engineering - B.Eng. | GPA: 4.04/5.0.
- Completed capstone project on Water Purification for Household. Received Dean's List award for 2 consecutive years.

HOBBIES

Playing football | reading | music | movies | exercising

CERTIFICATIONS

Meta Front-End Developer I & II

08/2023 – 09/2023

Coursera / Meta

- Completed comprehensive training & capstones covering HTML5, CSS3, JavaScript ES6+, React.js, Context API, Redux, API integration, and Jest testing.

FullStack Developer Certification

09/2022

Zuri Team

- Gained hands-on expertise building full-stack applications with reusable components, RESTful endpoints, and version control workflows.
